Contents

PART 1—OCTOBER 1972

PAGE

The growth and development of the rat aorta. I. Morphological aspects. By C. L. Berry, T. Looker and Jocelyn Germain 1

The growth and development of the rat aorta. II. Changes in nucleic acid and scleroprotein content. By T. Looker and C. L. Berry 17

Intra-pulmonary arterial development during fetal life–branching pattern and structure. By Alison Hislop and Lynne Reid 35

A comparison of the structural features of muscle fibres from a fast- and a slow-twitch muscle of the pelvic limb of the cat. By W. S. Al-Amood and R. Pope 49

The fine structure of the long-capsule muscle spindles in the snake *Natrix* sp. By D. J. Pallot and R. M. A. P. Ridge 61

Projection of striate cortex to the dorsal lateral geniculate body in the rat. By V. S. Gosavi and P. N. Dubey 75

Cilia in cell-cultured fibroblasts. IV. Variation within the mouse 3T6 fibroblastic cell line. By D. N. Wheatley 83

Membrane specialization and synchronized cell death in developing rat transitional epithelium. By J. A. Firth and R. M. Hicks 95

Proliferative characteristics of the ependymal layer during the early development of the mouse diencephalon, as revealed by recording the number, location and plane of cleavage of mitotic figures. By I. H. M. Smart . 109

The palatine tonsils of the pig – an afferent route to the lymphoid tissue. By Dorothy M. Williams and A. C. Rowland 131

The ultrastructure of pig trophoblast transplanted to an ectopic site in the uterine wall. By Carole A. Samuel and J. S. Perry 139

In Memoriam. Geoffrey Wingfield Harris 151

Book Reviews 155

Books Received 158

PART 2—DECEMBER 1972

Scanning electron microscopy of human dermal fibrous tissue. By Ian A. Brown 159

Lymphoglandular complexes in the large intestine of the dog. By A. M. Atkins and G. C. Schofield 169

PAGE

The arrangement and identification of axons innervating the vas deferens of the guinea-pig. By J. B. Furness and Takashi Iwayama . . . 179

The disposition and innervation of atrioventricular ring specialized tissue in rats and rabbits. By R. H. Anderson 197

Postnatal changes in the histochemical fibre types of porcine skeletal muscle. By A. S. Davies 213

Morphogenesis of the malformations induced in rat embryos by maternal hypervitaminosis A. By Gillian M. Morriss 241

Origins and development of interstitial tissue in ovaries of rabbit and guinea-pig. By Ruth Deanesly 251

Book Reviews 261

Books Received 267

Proceedings of the Anatomical Society of Great Britain and Ireland, September 1972 269

PART 3—DECEMBER 1972

The development of the chick tertiary bronchus. I. General development and the mode of production of the osmiophilic inclusion body. By Aled W. Jones and Carolyn J. P. Radnor 303

The development of the chick tertiary bronchus. II. The origin of the surface lining system. By Aled W. Jones and Carolyn J. P. Radnor . . 325

An electron microscopic study on the caudal glomerulus of the rat. By Hisatake Kondo 341

Repair of the para-articular bone plate in the rabbit knee. By G. Meachim . 359

The epidermal stratum corneum of the whale. By R. I. C. Spearman . . 373

The trans-sphenoidal vascular route in relation to the human pharyngeal hypophysis. By Philomena McGrath 383

The growth of the muscles of mastication in the rat. By J. Rayne and G. N. C. Crawford 391

Ultrastructural changes in tenotomized fast- and slow-twitch muscle fibres. By Robert J. Tomanek and Reginald R. Cooper 409

Enzymic changes in taste buds of monkey following transection of glosso-pharyngeal nerve. By S. Vij, R. Kanagasuntheram and A. Krishnamurti 425

Anatomical changes in peripheral nerves compressed by a pneumatic tourniquet. By J. Ochoa, T. J. Fowler and R. W. Gilliatt 433
